

BERGAMO ISOLANTI, THE BEST PRODUCTS AND SYSTEMS FOR CONSTRUCTION

Creativity, professionalism and excellence, for the past 50 years

PRODUCTION AND DISTRIBUTION OF INSULATING PRODUCTS FOR CONSTRUCTION

Product lines for supplies to customers of all sizes

Bergamo Isolanti has always been an industry leader in the supply of products for thermal-acoustic and soundproofing insulation especially for construction and general industry. In addition to dealing with some of the best brand products on the market, the company supports its own manufacturing of materials and systems which always guarantee the best possible results thanks to decades of experience.

The offices in Bergamo, Milan and Brescia work hand in hand to provide customers with impeccable products and tailor-made solutions, thanks to continuous research that has led to the development of innovative products.

The company is perfectly organised to supply both large and small quantities, meaning customers of any size.

OUR VALUES

Our products and systems guarantee:

- **Energy savings and redevelopment** - heat loss is avoided and energy consumption is reduced, with significant savings
- **Comfort and health protection** - a comfortable climatic balance in habitats is achieved through protection from heat, cold and noise
- **Efficient plant engineering** - once insulated, building technology systems and equipment provide better and higher performance thanks to the lower structural stress suffered, which simultaneously increases their service life and reduces maintenance costs
- **Safety** - protection against fire and burning surfaces of technological installations
- **Environmental protection** - to combat the greenhouse effect, all our products are manufactured carefully avoiding the release of harmful substances into the atmosphere

ISOLATING SYSTEMS FOR CONSTRUCTION

The best construction products distributed in Italy and abroad

Bergamo Isolanti offers a wide range of insulation products and systems for: any needs of the construction industry, systems for external insulation, dry construction, interiors, roofing, waterproofing, acoustic insulation, flue systems, and a complete range of complementary synergistic products. We assist customers throughout the pre- and post-sales process, with ongoing assistance that begins with the choice of materials and continues even after delivery. Every Bergamo Isolanti customer becomes a partner in high-level of service, tailored to suit their needs. Bergamo Isolanti guarantees good order handling completed by delivery service.

THERMAL-ACOUSTIC, SOUND-ABSORBING AND SOUND INSULATION OF FLOORS, WALLS, CEILINGS AND TECHNOLOGICAL INSTALLATIONS

Flexible polyethylene expanded cell open, closed and cross-linked foams - pipe sections

- Sheets
- Rolls
- Coverbloc pipe sections
- Tapes
- Complementary accessories

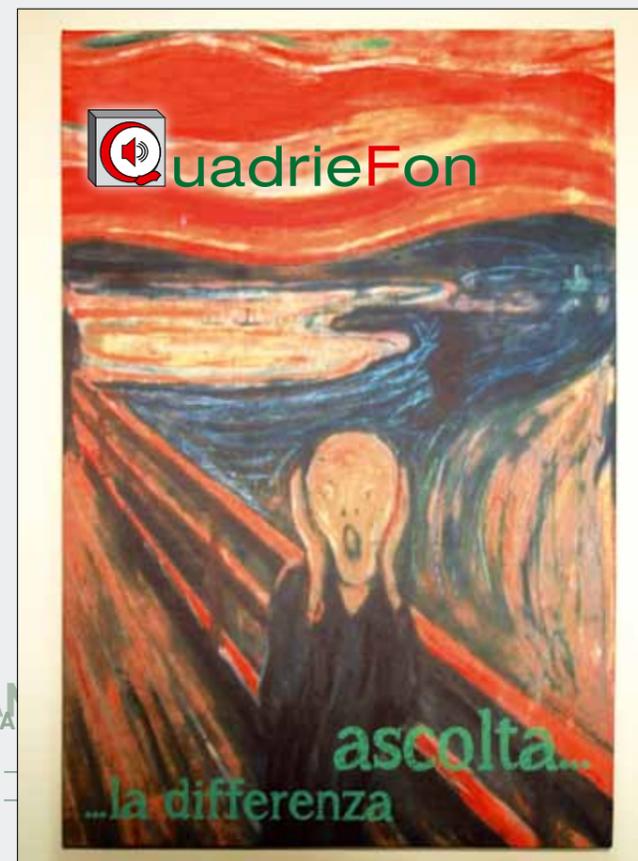

GAMMO
ISOLANTI BERGAMO ISOLANTI BERGAMO

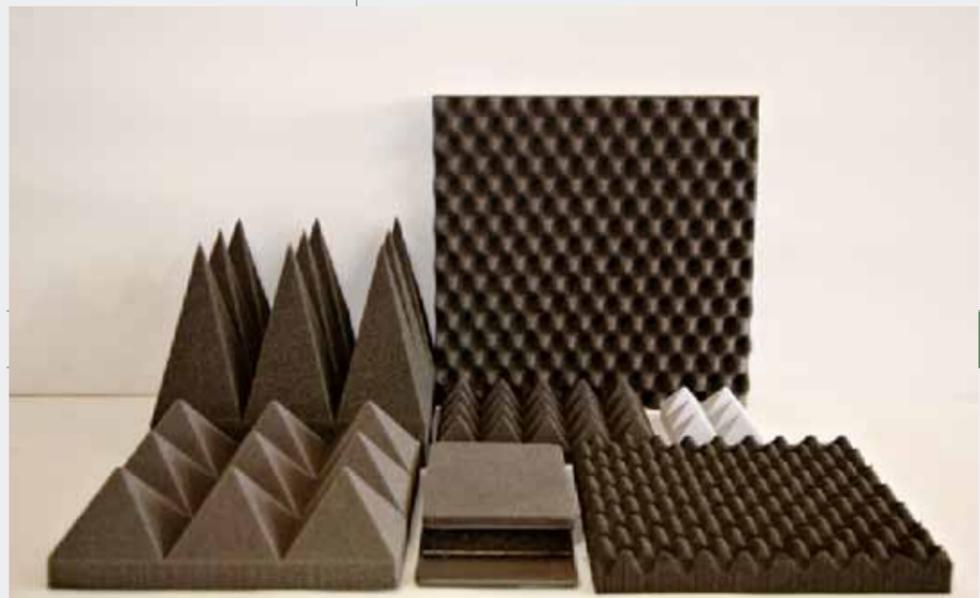

ACOUSTIC CORRECTION - SOUND-ABSORBING AND ANTI-REVERBERATION TREATMENT OF ROOMS

Sound-absorbing panel/board particularly suitable for modifying the sound field of acoustically poor environments even when suitable for anti-reverberation treatment. Suitable for acoustic correction of public premises, schools, conference halls, etc. (own brand certified product - see separate catalogue)

ANTINI
ISOLANTI BERGAMO ISOLANTI BERGAMO

Flexible foams
Pyramid panels
Embossed panels
Complementary accessories

THERMAL-ACOUSTIC INSULATION FOR FIXTURES AND EQUIPMENT WITH SPECIAL SHAPES

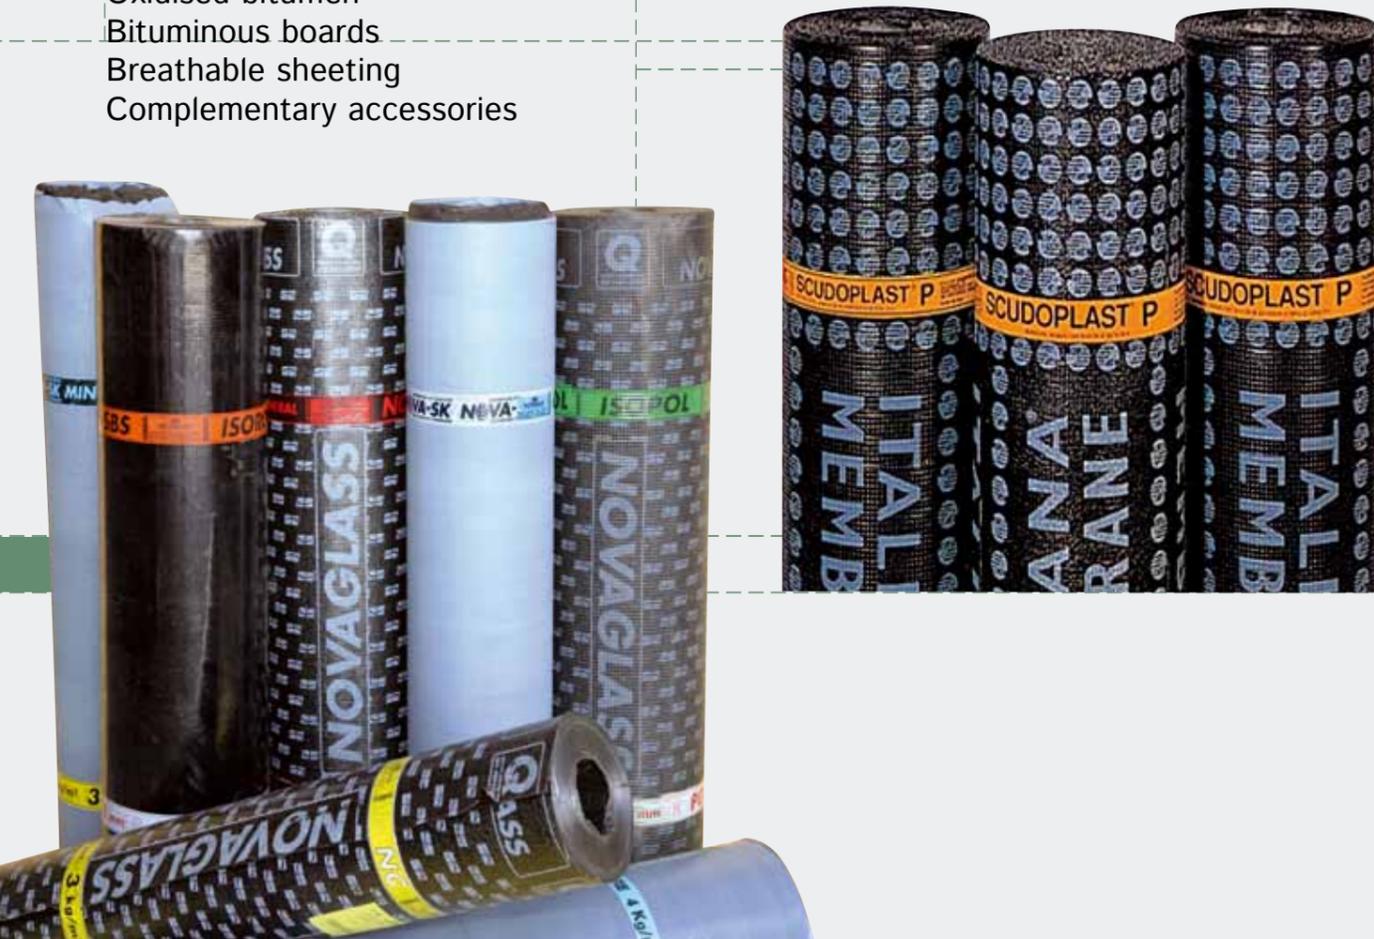

Flexible elastomeric seals in PVC, polyethylene, polyester and synthetic rubber.
Rolls in thicknesses and sizes on request

WATERPROOFING PRODUCTS

For waterproofing we propose:

- Sheaths of various types
- Bituminous emulsions
- Liquid membranes
- Oxidised bitumen
- Bituminous boards
- Breathable sheeting
- Complementary accessories

EXTERNAL INSULATION - KAPPAISOL SYSTEM

The complete and varied system solutions that we offer for creating external insulation include:

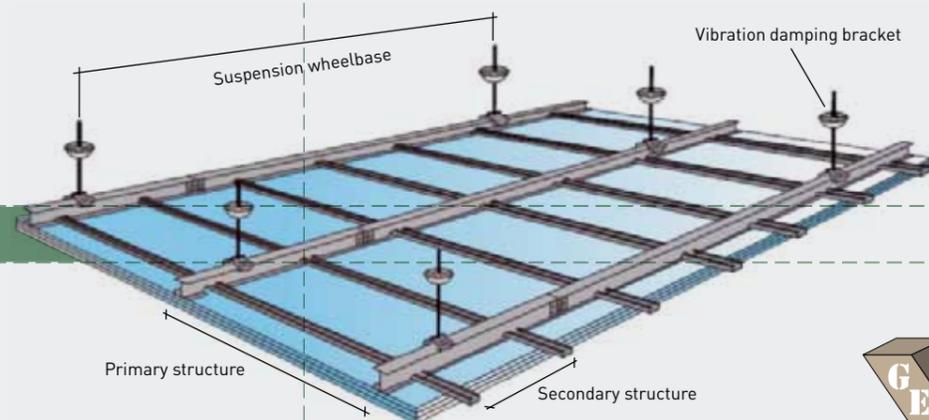

- Mineral wool and/or polystyrene-based insulating panels
- Fixing composites
- Smoothing mortars
- Adhesives
- Glass fibre reinforcements
- Plasters
- Complementary accessories (see separate catalogue)

DRYWALL AND CEILINGS - KOVERGESSO SYSTEM

A complete system for building walls, counter walls, lightweight barriers, room dividers and suspended ceilings with drywall structures that we also offer as an alternative, with a wide choice of:

- Plasterboard sheets and panels
- Metal profiles for structural frames
- Mineral wool insulation
- Skim coatings, fillers and adhesives
- Complementary accessories
- (see separate catalogue)

WOODEN ROOFS - KOVERTETTO SYSTEM

A complete system for creating a perfect natural and/or structural timber roof, complemented by high quality and efficient insulation and accessories. (see separate catalogue)

KOVERTETTO®

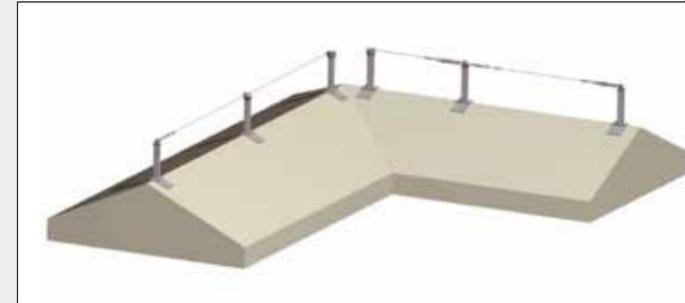

PROTECTIVE SHEETING FOR ROOFS AND GENERAL ROOFING

Vapour retarder sheeting, breathable sheeting, vapour barrier sheeting

FALL PROTECTION LIFELINE - GLV GENIURA SYSTEM

Special safety line suitable for preventing injuries caused by falls from height. Simple yet safe system, made from high quality manufactured products. (see separate catalogue)

GLV-GENIURA

SHOCKPROOF BUMPERS FOR CARS - ÈPERBOX SYSTEM

Eperbox is a special synthetic product that lets you protect your vehicles from minor errors when manoeuvring and parking in the garage. (see separate catalogue)

SMOKE SYSTEMS - INTERNALLY INSULATED SMOKE EVACUATION CHIMNEYS

Single and double wall stainless steel chimneys

Steel tubes and bends

Coverbloc pipe sections and bends (see separate catalogue)

Special pieces

Complementary accessories

MULTI-PURPOSE SYNERGISTIC PRODUCTS AND COMPLEMENTARY ACCESSORIES

Products to complete the range

Tiles

Roof tiles

Counterframes

Roof windows

Retractable boxes

Smoothing mortars

Fillers and plasters

Pre-packaged adhesives

Protective sheeting

Embossed foundation insulation

Products for crawl spaces

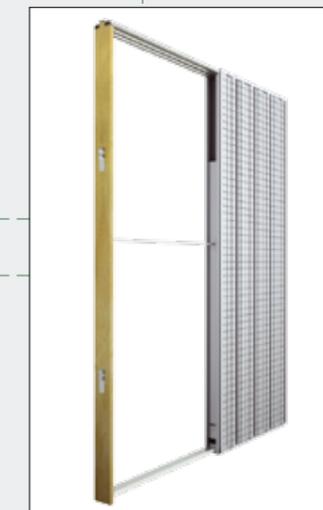

Adhesive tapes

Bituminous boards

Glass veils and fabrics

Chemicals for fibreglass product fabrication

Calculation program software

BERGAMO ISOLANTI BRANDS

OUR HISTORY, OUR MISSION...

The history of Bergamo Isolanti has deep roots in the flourishing economy of Lombardy.

The company was founded in 1974 as the result of experience dating back even further in the insulating materials sector and was named after the city of Bergamo, at that time the company's first headquarters.

At a time when general insulation was still in its pioneering stage, Bergamo Isolanti immediately sought excellence, focusing on insulation materials for plant engineering, industry and construction.

The booming economy of the early 1980s led to the opening in 1983 of the Milan office and then to the Brescia office in 1996.

Over the course of 1997, thanks to increasingly loyal customers, the company was transformed into a joint-stock company, or rather into a company name more appropriate to the important dimensions it had now reached.

The quality of the work carried out by the company is the result of decades of experience and in-depth specialisation that has allowed us to become a secure leader in the industry.

Every customer becomes a Bergamo Isolanti partner and develops a direct relationship with our company, which provides assistance in choosing the most suitable solutions.

Important results have been and still are being achieved through investment, innovation and with the help of trained Personnel who have great knowledge of the materials as well as the sectors they are intended for. The thirty thousand operators in the various market sectors satisfied during these first 50 years are testimony to the success of the Bergamo Isolanti mission to serve its Customers in the best way possible.
